Sub:- Empanelment of Mediators by Construction Industry Arbitration Council

This has reference to my note on the subject date 14.9.2023, wherein the announcement of empanelment of Mediators on the panel of CIAC was made.

As it is known, the Mediation as a mode of dispute resolution is becoming popular by the day in all commercial disputes. The passing of Mediation Act has further catalysed the popularity of mediation in India.

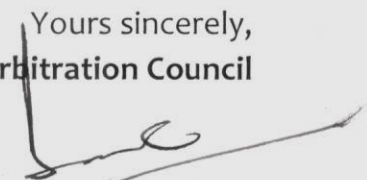

The resolution of construction disputes where multi-tier dispute resolution clauses are common the mediation is used very frequently. The Med- Arb process has further emphasized the need of efficient handling of Mediation in resolution of construction disputes.

The Construction Industry while resolving the disputes need the trained & specialized mediators who must know the technicalities and complexities involved in construction process.

In order to train and empanel the mediators with CIAC a 40- hour (5 day) training will be organized in New Delhi from 19th March,2024 (Tuesday) to 23rd March, 2024 (Saturday).

Interested individuals may contact Sh. Amod K. Dalela, Principal Advisor cum Hony-Registrar, CIAC. (amodkdalela.ciac@gmail.com) to register for empanelment and join the training of Mediators on Construction Mediation.

Yours sincerely,
For Construction Industry Arbitration Council

(Dr. P.R Swarup)
Member Secretary, CIAC
